CAREER OPPORTUNITIES – Goleta, CA

### Senior Antenna/RF Engineer (Ref #1805-E)

Toyon is seeking an Antenna/RF Design Engineer with practical experience in both the design and test of antennas and the design and test of RF and microwave circuits. Join a dynamic team of creative engineers working on state-of-the-art antenna problems for radar, navigation, communications, electronic warfare, and embedded sensors across the entire electromagnetic spectrum.

The position requires a minimum of four years RF/Antenna design experience and a Bachelors, Masters, or Ph.D. Degree in Electrical Engineering, Physics or related discipline.

Any of the following capabilities, or a subset thereof, will be highly valued:

- Frequency Selective Surface (FSS) design
- Low Radar Cross Section (RCS) design
- Python, C, C++
- MATLAB
- Ability to think outside the box
- Excellent verbal/written skills
- Program management capability

Familiarity with standard computer aided design and analysis tools such as Ansoft HFSS or CST Microwave Studio is required.

**U.S. Citizenship Required.** Ability to qualify for a US Department of Defense security clearance required.

Please e-mail resume to:  
employment@toyon.com

**WE OFFER AN EXCEPTIONAL EMPLOYEE BENEFITS PACKAGE!**
