CAREER OPPORTUNITIES – Santa Barbara, CA

Devices/RF Engineer, Part Time (Ref #2104-E)

Toyon Research Corporation is a nationally recognized, employee-owned, small business engaged in research and development of systems to support our national defense. Toyon is currently seeking a highly capable Part-time Devices/RF Engineer with knowledge of GaN fabrication techniques to help with the development of GaN devices. Join a dynamic team of creative engineers working on state-of-the-art devices for applications such as tunable filters, frequency multipliers, and local oscillators across a broad portion of the electromagnetic spectrum.

The ideal candidate will have the following experience and skills:

- Self-motivated, detail oriented, and organized
- Experience with lithography, metal evaporation, and dry etching tools are a plus
- Experience with layout tools such as L-Edit
- Experience using UCSB's HFM lab for DC probing, impedance testing, Hg-CV characterization, and PNA testing are a plus

Candidates with a Bachelor's degree or higher in Electrical Engineering, Physics, or Materials science are encouraged to apply.

U.S. Citizenship Required. Ability to qualify for a US Department of Defense security clearance required.
